Ramblin' Boy

```
G        D                      G
He was a friend and a friend always

              D                         G
He stuck with me through the hard old days

               C               G
He never cared     if I had no dough

           D                      G
We rambled round in the rain and snow.

CHORUS:
                G      C               G
And here's to you,        my ramblin' boy

              D                 G
May all your ramblin' bring you joy.

                 G      C              G
And here's to you,        my ramblin' boy

              D                 G
May all your ramblin' bring you joy.
```
