Somebody Stole My Gal

```
G        G7       D                          G
Somebody stole my gal, somebody stole  my  pal,

 E7                A7
Somebody came and took her away,

                  D
She didn't  even say that she was leaving,

G        G7       D                         B7
Her kisses I love so, she’s misses mine I know,

    G                 G7
Oh, gee, If she could see

     C                      Cm
Poor me, her very lonesome, very lonesome pal now

G                   E7
She’d come runnin’ right back to me

A7       D7       G
Somebody stole my gal
```
