

## ***Beale Street Blues***

G                    C7                    G  
I've seen the lights of gay Broadway,

   C7            G  
Old Market Street down by the Frisco Bay,

                                 D7        C7                    D7            G            (D7)  
I've strolled the Prado,    I've gambled in Cross Lanes!

Repeat for verse 2

                  G  
You'll see pretty browns in beautiful gowns,

   A7            D7  
You'll see tailor-mades and hand-me-downs,

                  G                    G7            C7                    A7  
You'll meet honest men, and pick-pockets skilled,

                  G                    Edim                    D7                    G  
And business never ceases 'til somebody gets killed!

Repeat

                  G                    D7                    G            G7  
I'd rather be there                    than any place I know,

                  C7                    G            F#            E  
I'd rather be there than any place I know,

                  A7                    D7                    G  
Chicago's my home but Beale Street's where I roam.
