

## *Driving Wheel*

**D** **Em** **C G** **D (G D)**  
Just came up on the midnight special. Hey how about that?

**Em C G** **D (G D)**  
My car broke down in Texas. She stopped dead in her tracks.

**G** **F#m** **D (G D)**  
Just called to tell you that I need you.

**G** **F#m** **Em A**  
Just called to tell you how I feel.

**D** **C** **G** **D**  
I feel like some old engine, that's lost my driving wheel.

**C** **G** **D**  
I feel like some old engine, that's lost my driving wheel.

Took my money on a night train north. What a terrible flight.  
I gave my promise that I would be there with you by Saturday  
night.

I want to tell you that I need you.  
I need to tell you how I feel.  
I feel like some old engine, that's lost my driving wheel.  
I feel like some old engine, that's lost my driving wheel.

You can't say much in a phone call babe. You know how it is.  
I have to tell you one short thing. Oh, won't you listen to  
this.

I just called to tell you that I love you, baby.  
I need to tell you, Oh, how I feel.  
I feel like some old engine, that's lost my driving wheel.  
I feel like some old engine, that's lost my driving wheel.
